PROOPI-758	Javier Martínez Cantó	8,7
PROOPI-601	Elia Romera Figueroa	8,7
PROOPI-823	Sol Sánchez-Dehesa Galán	8,7

⁽¹⁾ Evaluation criteria:

-To be qualified for a fellowship, the candidate must obtain at least 7.0 points (7.0 over 10). Therefore, any candidate who has not obtained this minimum score will be excluded from the process.

-For each call, 1 fellowship will be reserved for researchers with special needs if the candidates exceed the minimum threshold (7.0 over 10).

-For each call, 3 fellowships will be assigned to each field of knowledge up to 15, with the remaining 5 reserved for the highest scoring candidates.

- In case after the first round, the 5 fields of knowledge have not been completed with 3 candidates each, and to award all available fellowships, these fellowships will be added to the previous pool (5 fellowships) and distributed among the candidates who obtained the highest scores. It will be considered that no more than 5 contracts may be awarded per field of knowledge, unless there are no candidates admitted to the other thematic fields.

-Final ranking will also consider that none of the two sexes have a greater presence than 60% or less than 40%. To this end, this provisional list could be modified incorporating candidates from under-represented gender (which were initially listed in the highest positions in the Reserve List) in substitution of those candidates from over-represented gender (which were initially listed in the list of selected candidates with the lowest scores).
